Conti..

It is open-source with consensus achieved using proof of stake. It has been launched with a strong focus on Exchangers and scalability, and it enables complete privacy. MEG Token has a substantial Ecosystem around which includes Launchpad, Swap Exchange, Defi Ecosystem, NFT Marketplace, Game fi, Exchange, and many other components to make the MEG Token Network more efficient. So, Unique Coin is the most important.

Decentralized

Decentralized marketing is created with an automated contract that offers you maximum security and sustainability. A smart contract is an automatic execution algorithm. It exists within the Multi block chain. the number one cryptographic currency among those with which smart contracts can be created.

Smart contracts, like cryptocurrencies, are decentralized. They work strictly according to the underlying program, without the possibility of subsequently changing the defined execution. The code that contains all the logic of the contract expiration is on the block chain and all calculations are provided by millions of computers around the world.

Binance Smart Chain

Binance is founded on a few essential concepts, the most important of which is decentralization. All data on the Block chain is completely unfettered and is not under the jurisdiction of a central authority. Content creators can receive Binance in return for sharing their work. Additionally, developers can create their own coins on the Binance network. These tokens can then be used in the network's user-created decentralized apps (dApps). Binance main token is used to back the newly issued tokens. The network's ultimate step of development is to support Binance -based games. These games would be totally decentralized, with users rewarding authors directly if they enjoyed the game. Binance's consensus algorithm is referred to as delegated proof of-stake. In this system, transactions are authenticated by 27 super representatives who are responsible for keeping the transaction history.

Token Details

Token Full Name - Meg AI Token

Token Ticker- MEG

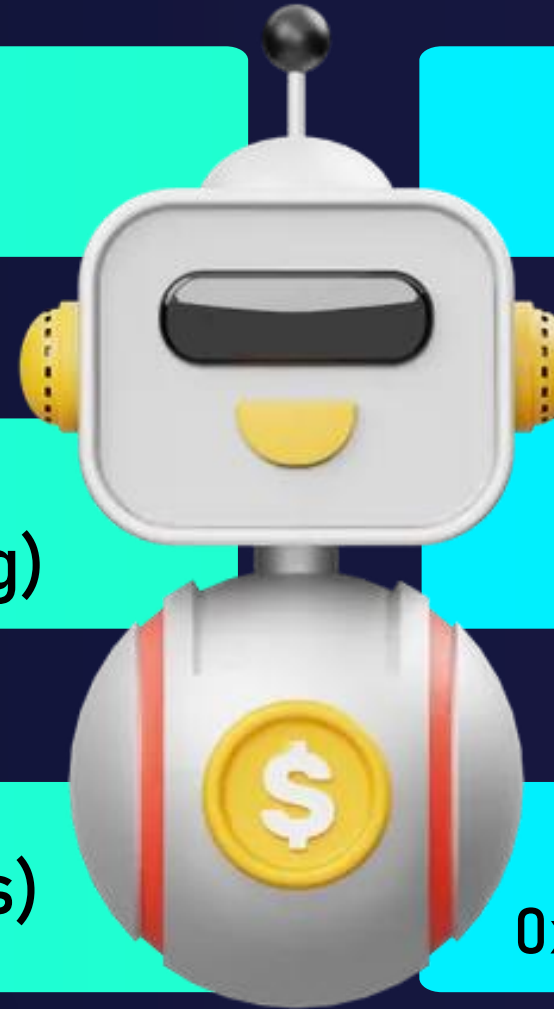

Network- BEP20 (bscscan.com)
Network- Ton Network (Tonscan.org)

Decimal- 18

Total Supply- 190000000 (190 Millions)

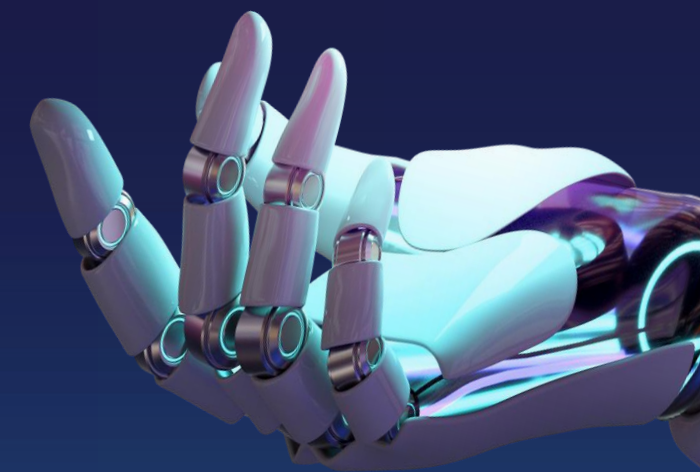

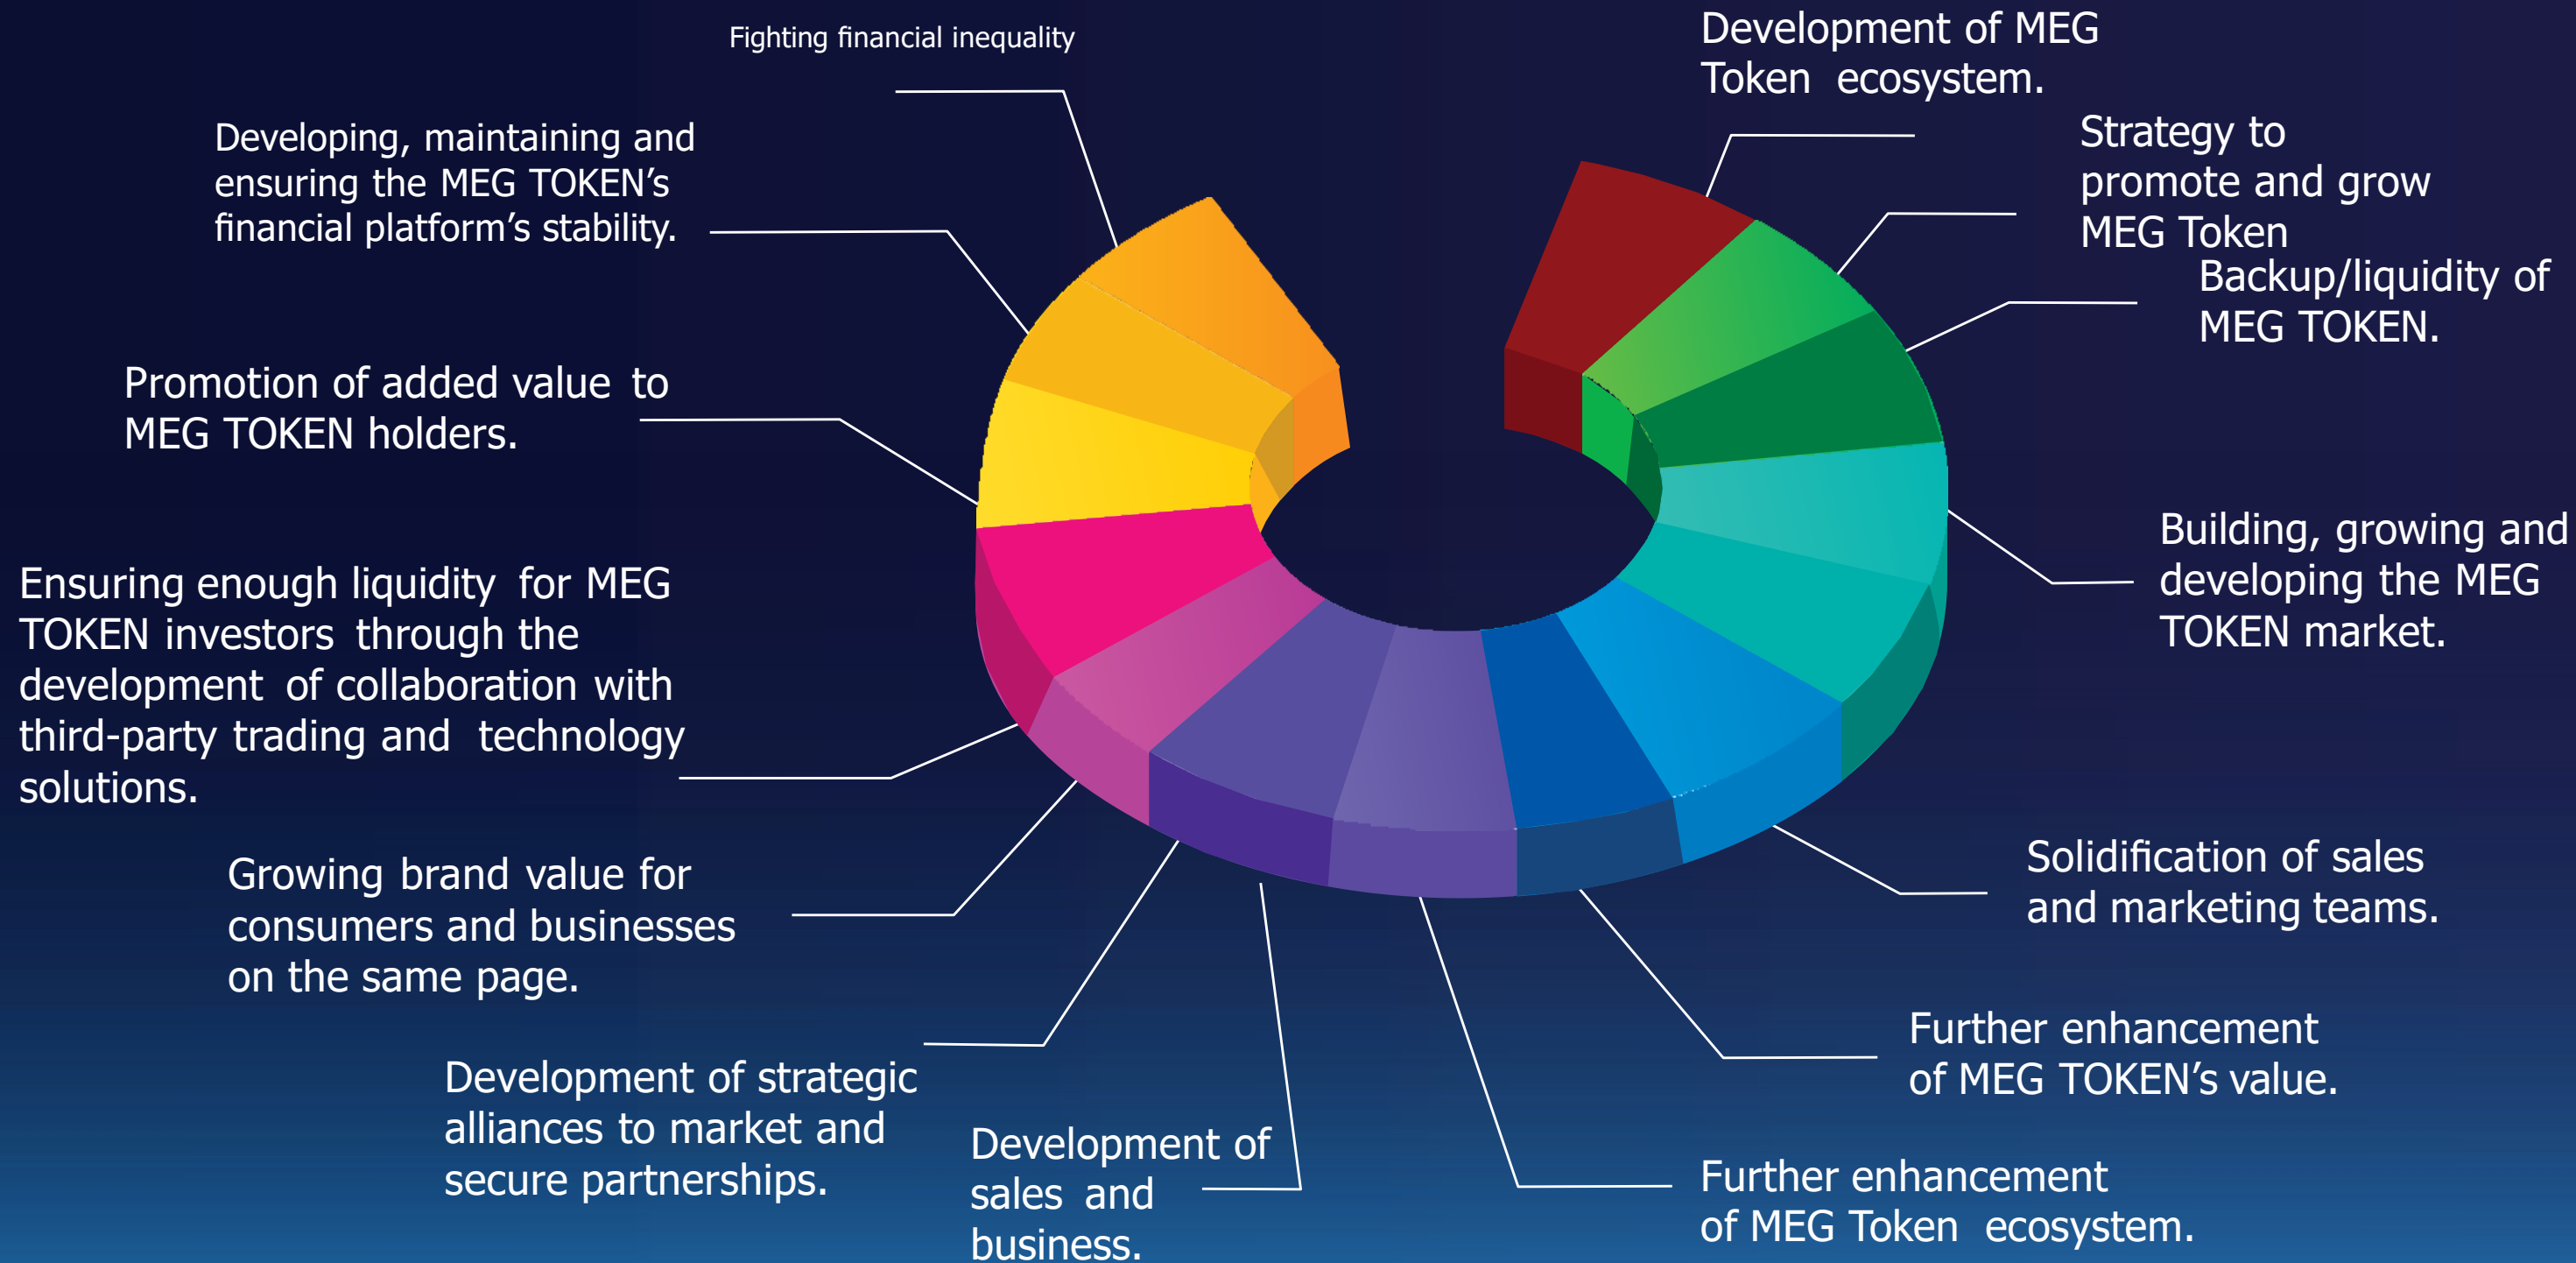

Contract Address

0x7b25AdB8D0002A3d8A0e1E5C606b1ecDe139EdD7

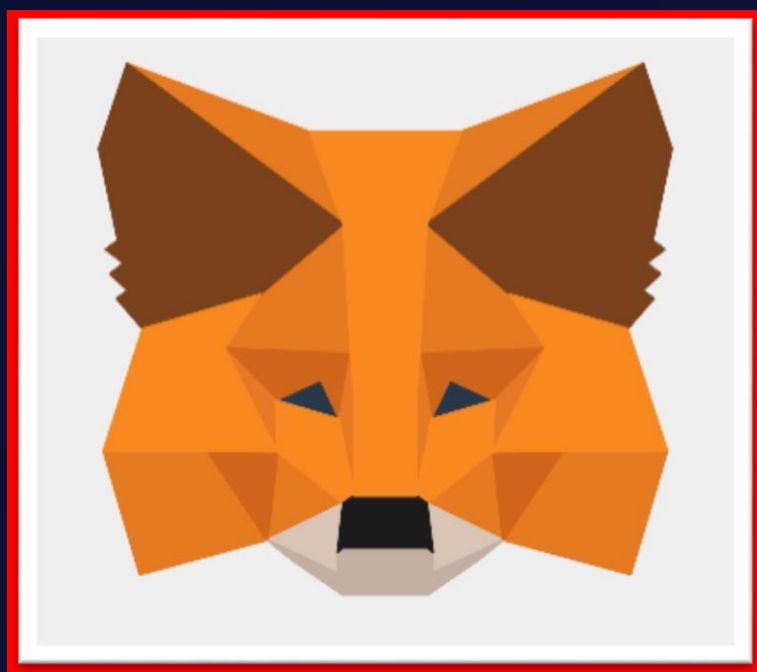

TOKEN ALLOCATION

Total Supply = 190 Millions

Our Partners
